CONFERENCE of RELIGIOUS
England & Wales

The Conference of Religious (CoR) seeks to be a dynamic and proactive presence of Church, particularly with those on the margins of society. It aims to unite its membership in collaborative initiative translating gospel vision into reality, and to offer support to those in positions of leadership.

The aim of the CoR is to represent the leaders of religious life. It does this in two ways: by supporting the leaders and by speaking to society.

CoR is represented on the CBCEW healthcare reference group and is supporting the Faith in Health Conference.

The Catholic Medical Association is an association of Catholic healthcare professionals in England and Wales. It offers:

- ➔ professional support, especially in matters of conscience affecting your career;
- ➔ informed opinion about the implications of developments in medicine and social policy;
- ➔ an effective voice which can, when necessary, make itself heard at the highest level;
- ➔ an effective therapy for the sense of isolation sometimes experienced by Medical Practitioners of our Faith.

It is open to members of all healthcare professions.

CATHOLIC BISHOPS' CONFERENCE
OF ENGLAND AND WALES

The Bishops' Conference has recently engaged in a number of initiatives to support the Catholic Church's healthcare ministry in England and Wales. Publications on healthcare chaplaincy and on caring for the Catholic patient have sought to address the practical needs of chaplains and NHS Trusts and the spiritual needs of patients.

It has become clear that there is a desire amongst many Christian healthcare professionals to find opportunities to better integrate their faith and their work.

CATHOLIC BISHOPS' CONFERENCE
OF ENGLAND AND WALES

Faith in Health

Beginnings and endings

– caring for the whole person

A conference for health and social care professionals

To be held from 3.30pm on 24th to lunch on 26th June 2010
at Liverpool Hope University, Liverpool

The conference is open to all health and social care professionals, of all faiths or none. This is the second of the National Conferences ‘Faith in Health’ organised by the Catholic Bishops Conference of England and Wales, and is supported by the Conference of Religious and the Catholic Medical Association.

This conference will bring together health and social care professionals to explore issues of transition and change for the care giver and the care receiver, with particular reference to the quality of care and meeting spiritual needs. Delegates will have the opportunity to explore the basis of their vocation to work in health or social care, and to be renewed and affirmed in it.

There will be plenary and parallel sessions and a conference dinner. As well as five plenary sessions (see details on next page), delegates are able to choose from 14 workshops led by experts in a range of related topics. CPD accreditation is being sought.

Conference objectives are to:

- ➔ bring together people in health and social care to connect more deeply with faith and the spiritual aspects of care;
- ➔ develop deeper understanding of the tensions and possibilities of different conceptions of spirituality and spiritual care;
- ➔ encourage greater involvement in Catholics in Healthcare networks – virtual and local groups.
